About the Fair Association

The non-profit Fair Association continues to provide a significant public benefit without receiving any tax support. The Fair Association's nonprofit Board of Directors seeks to operate the fairgrounds in a professional business manner & maintain prudent cash reserves. In addition to maintaining & enhancing the existing facilities, the Fair Association originally purchased the 268-acre fairgrounds in the 1930's and deeded the property to the County of Alameda in the 1940's.

With the "Oldest One-Mile Race Track in America," the Fair Association hopes to continually enhance its horse training and racing program in Pleasanton.
